## 2020 Product Recap

This past year we focused on user experience, making hundreds of improvements to help our customers become even more efficient. With our current and future clients in mind, we released critical updates and new powerful features.

A promotional banner for "DIGITAL OILFIELD Go Mobile!" with the website "www.riger.us". It features an image of an oil rig and a smartphone displaying the RigER mobile application interface. To the right is the RigER 8.0 ODESSA logo.

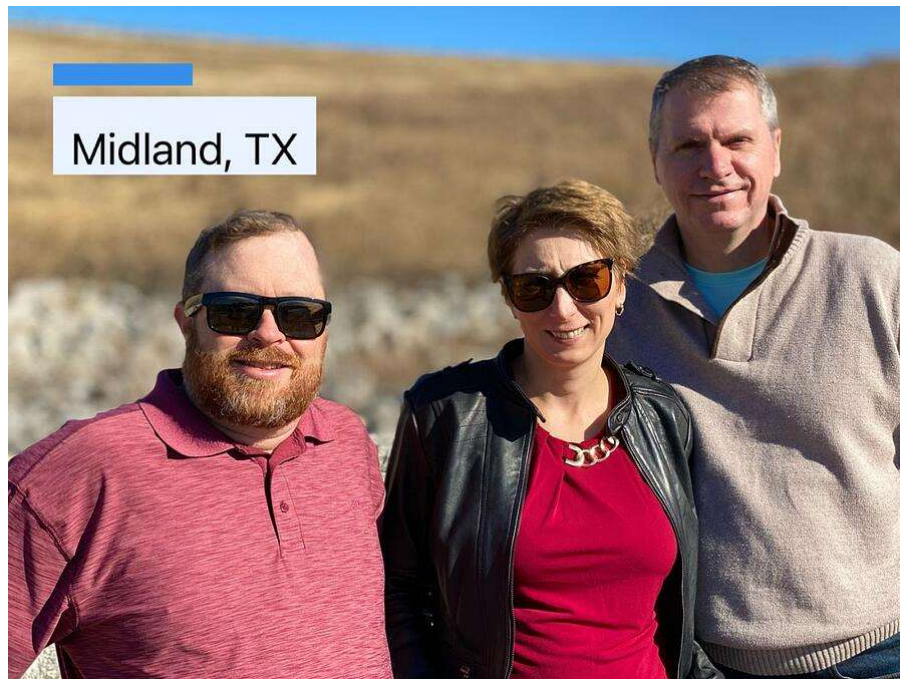

Here is just a few things we added to RigER to get work done faster and more easily while eliminating errors, delays, and complications associated with traditional processes of paper, spreadsheets, and email.

- **New Products:** RigER: Frac & Flowback, RigER: Downhole Tools, RigER: Light Towers & Generators;
- **New Modules:** Oilfield CRM, Equipment Reservation, Equipment Rework, Job Costing, Service Calls;
- **New Features:** Home Page with dynamic widgets, Field Repairs, Barcoding, Built-in Email Client, "Out of Fleet" equipment status, Pre-Delivery Inspections;
- **New Dashboards:** Repair Dashboard, Activity Log Dashboard, RSA Kanban Dashboard;
- **New Integrations:** Avalara Tax, MS PowerBI;

Moreover we completed the **ISO 27001** certification, released **3 new Mobile Applications** and one fully functional **Mobile Client**.

## New Office

We opened a new office in Texas and our US based Team is ready to rock!

## New Publications

### RigER in PB Oil&Gas Magazine

"RigER offers yet another aspect of paperwork reduction, aimed at rental companies with extensive inventory, letting them digitize tracking, invoicing, and billing. Their beginning was much like that for Cleargistix – a paint point involving paper."

### RigER in Bakken Oil Journal

The latest version of RigER was featured in the latest issue of Bakken Oil Business Journal. RigER Odessa 8.0 enables field workers, supervisors, and office staff to get work done faster and more easily while eliminating issues associated with traditional paper processes.

### How we celebrated Christmas 2020

2020 global situation made everyone adjust to a new lifestyle. Social distancing restrictions made everyone be more creative in terms of how we work, collaborate with each other and keep business running. At the end of 2020 RigER team held a virtual Christmas Celebration. We had lots of fun.

### What Our Customers Say...

We are excited to share another happy client story. We interviewed Chief Operating Officer at Sprint Rentals, who shared with us what had prompted them to start to use RigER and how RigER has changed their lives. Just click on the video below and watch the full interview.

*“Before RigER, I would spend weeks just keeping track of paper tickets. Once the jobs were done I would have to manually enter information from each ticket to complete my invoicing for the job or for the month. With RigER, when it is time to invoice, I generate an invoice directly from the service agreement and I’m done. RigER has saved me countless hours in my day to day operations.”*

**DIGITAL 2020**
