## RigER: Start - New Solution for Small Business

The beginning of 2021 was marked by the new addition to our RigER products family. We launched **RigER: Start** - special configuration designed to meet the growing oilfield business needs. This is the only system you need to streamline routine operational tasks, cut costs, and save valuable time. RigER: Start consolidates all your data in one place significantly increasing daily operational efficiency while eliminating paper tickets and whiteboards.

## In-Person Events Are Back

We are so excited that this year RigER Inc. team will have a chance to take part in live Oil & Gas events again.

We are inviting you to come and see us at West Texas Oil & Gas Convention taking place in Midland, TX on March 24-25 at our **Booth #409**.

And here is something special for you: **ANYONE WHO HAS OUR EXHIBITOR TICKET GETS IN FOR FREE.**

Just click the image and print it.

You can also check the whole events calendar for 2021 on our website:

<https://rigger.us/events/>

**Our US Based Team is Ready to Rock!**

## **Blair Kenley**

Director of US Operations

*"Integrity and honesty. No matter what you do in life, if you keep those two values, you will always win"*

## **Mike Tribble**

US Sales Representative

*"I believe RigER is a great place to be a part of and I look forward to what the future holds"*

## **Another RigER Award Arrived**

We are very proud to share that last year we were awarded the "**Best Oilfield Equipment Rental Cloud-Based SaaS Solution**". And finally it arrived...

---

### What Our Customers Say...

We continue a series of reviews from our clients. We spoke with the General Manager of TOG Systems.

*“Learning a new system is always a challenge but the level of support and responsiveness of the RigER team makes it easy. After several months of using the new system, we are seeing the benefits of tracking equipment in real time and now get our invoices out to our clients much quicker...and with increased accuracy”*

### In Case You Missed It

Last month we hosted 5 webinars. If you were not able to attend you can always watch them at your convenience on our YouTube channel. Click and Enjoy!

Watch Webinar

### [RigER and Quickbooks Integration](#)

Smooth integration with accounting systems is one of RigER advantages. QuickBooks® is the most popular accounting software and in this webinar we shared best practices and showed the integration process from A to Z.

Watch Webinar

### [Oilfield Rental Equipment Combinations](#)

In Oilfield Rental business bundling several items together and use those as one item makes everything easier. In this webinar we discussed all the different ways available in RigER to create combinations of items and use them.

Watch Webinar

### [RigER:Start - New Solution for Small Business](#)

During this webinar we presented our newest product designed specifically for small energy service and equipment rentals companies. This tool will help owners and managers to streamline routine operational tasks, cut costs, and save valuable time.

Watch Webinar

### [Frac and Flowback Equipment Rentals](#)

During this webinar you will learn how RigER: Frac and Flowback can make tracking complex rental fleet, equipment maintenance, repair and inspections much easier.

Watch Webinar

### [9 Ways of Oilfield Job Invoicing](#)

The ability to generate accurate invoices in a timely manner has been one of the major benefits that RigER users get. It allows you to cut invoice processing time and bill your customers with a single accurate invoice for different types of services within 24 hours after job is done.
